### Section 18 – Vendor Advisory Committee

The DGM Vendor Advisory Committee (VAC) is comprised of up to ten market vendors. The number of artisan and prepared food seats should never exceed the number of grower seats.

The mission of the VAC is to collectively listen to its members and vote on decisions that affect the market as a whole, as well as to address the concerns and ideas of fellow market vendors for the overall success of the DGM. VAC members support the market manager with informed advice on current and future situations, as well as communicate pertinent information to fellow vendors. If a vendor has a suggestion pertaining to the market, they are encouraged to reach out to the market manager or a member of the VAC.

## Section 19 – Arbitration

By renting a stall at the Market, the vendor agrees to settle disputes by arbitration that cannot otherwise be resolved. This form of dispute resolution will be the sole remedy for resolution of any and all disagreements or disputes arising under or related to the Market Rules and Regulations or the membership agreement (including, but not limited to, any statutory or tort claims arising from the relationship between the parties). One neutral arbitrator agreed on by the parties shall conduct the arbitration in Albuquerque, New Mexico. If the parties cannot agree on an arbitrator, each party shall select and pay for its own arbitrator, and the arbitrators so selected will select an arbitrator to chair the proceedings. The costs of the neutral arbitrator (whether the sole arbitrator or the chairperson of an arbitration panel) will be shared equally by the parties.

Consistent with the expedited nature of arbitration, each party will, upon the written request of the other party, promptly provide the other with copies of documents relevant to the issues raised by any claim or counterclaim on which the producing party may rely in support of or in opposition to any claim or defense. Any dispute regarding discovery, or its relevance or scope, shall be determined by the arbitrator (or chairperson, if a panel), which determination shall be conclusive. Other discovery will not be permitted. All discovery shall be completed within 60 days following the appointment of the arbitrator(s). The decision and award determined by the arbitration shall be final and binding upon the parties. Judgment upon the arbitration award may be entered and enforced in any court having jurisdiction. The parties agree that any arbitration shall be governed by the New Mexico Uniform Arbitration Act, NMSA 1978, §§ 44-7A-1, et seq., as now existing or hereinafter amended. These rules and Regulations shall otherwise be governed by, and construed in accordance with, the laws of the State of New Mexico.

**Acknowledgment that you have read and understand the DGM Rules and Regulations must be indicated on your vendor application with your initials, signature and date.**

Keep a copy of these Rules and Regulations for your records.
