**Section 16 – Waste Management**

101) City trashcans are utilized during the market.

102) Vendors are responsible for hauling their own waste generated during market. I.e. no dumping trash in public waste cans. Take out what you bring into the park to help alleviate the amount of trash generated during market.

**BURDENING THE MARKET TEAM AND THE WASTE SYSTEM WITH YOUR BUSINESS’ WASTE WILL RESULT IN A STRIKE.**

103) Please keep the area around your booth clean and in good condition. Additionally, vendors are required to clean up their site after the market is closed. Again, **leftover product is not allowed to be dumped in the Park’s waste containers.**

104) Styrofoam is not allowed at the Market for any reason.

105) All straws, silverware, and items used to serve samples are **REQUIRED** to be **commercially** compostable. [Commercially compostable means that ABQ’s Soilution’s facility is capable of composting the materials. Please visit their website (http://soilutions.net/foodwaste-recycling/what-we-dont-accept-for-recycling/) for more information.] Please visit the DGM website-vendor portal
(http://www.downtowngrowers.org/vendor-portal.html) for links that will direct you to DGM/Soilutions approved products. If the products found on the DGM website do not work for a vendor’s needs, vendors are allowed to find and purchase their own products, but are required to get them approved through DGM management prior to purchase, to ensure Soilutions will be able to accept these products.

106) All produce bags and shopping bags are **strongly recommended** to be made of paper or compostable products.

107) All other materials (plates, cups, bowls, etc.) are **strongly recommended** to be either compostable or recyclable (the City of Albuquerque accepts plastics #1-7).
   a. In order to be recyclable, the item must not be covered in food by the end of its use. If it will be, it should be compostable. For example, a cup served with agua fresca will be clean enough to be recycled, as opposed to a plate that will have enchilada all over it. The plate should be compostable.

### Section 17 - Strikes

108) Strikes are given to vendors when rules and regulations are not followed.
   a. **Strike 1**: An emailed notification will be sent to the vendor by the market manager along with a notification requiring a $10 fine.
   b. **Strike 2**: An emailed notification will be sent to the vendor by the market manager along with a notification requiring a $20 fine.
   c. **Strike 3**: An emailed notification will be sent to the vendor by the market manager notifying the vendor of their exclusion from the market for the season.

### Section 18 – Arbitration

By renting a stall at the Market, the vendor agrees to settle disputes by arbitration that cannot otherwise be resolved. This form of dispute resolution will be the sole remedy for resolution of any and all disagreements or disputes arising under or related to the Market Rules and Regulations or the membership agreement (including, but not limited to, any statutory or tort claims arising from the relationship between the parties). One neutral arbitrator agreed on by the parties shall conduct the arbitration in Albuquerque, New Mexico. If the parties cannot agree on an arbitrator, each party shall select and pay for its own arbitrator, and the arbitrators so selected will select an arbitrator to chair the proceedings. The costs of the neutral arbitrator (whether the sole arbitrator or the chairperson of an arbitration panel) will be shared equally by the parties.

Consistent with the expedited nature of arbitration, each party will, upon the written request of the other party, promptly provide the other with copies of documents.
relevant to the issues raised by any claim or counterclaim on which the producing party may rely in support of or in opposition to any claim or defense. Any dispute regarding discovery, or its relevance or scope, shall be determined by the arbitrator (or chairperson, if a panel), which determination shall be conclusive. Other discovery will not be permitted. All discover shall be completed within 60 days following the appointment of the arbitrator(s). The decision and award determined by the arbitration shall be final and binding upon the parties. Judgment upon the arbitration award may be entered and enforced in any court having jurisdiction. The parties agree that any arbitration shall be governed by the New Mexico Uniform Arbitration Act, NMSA 1978, §§ 44-7A-1, et seq., as now existing or hereinafter amended. These rules and Regulations shall otherwise be governed by, and construed in accordance with, the laws of the State of New Mexico.

Acknowledgment that you have read and understand the DGM Rules and Regulations must be indicated on your vendor application with your initials, signature and date.

Keep a copy of these Rules and Regulations for your records.
